

Allowing LPFM stations to have priority over current translator stations like K-LOVE would be an injustice to thousands of stations and detrimental to our community. Thousands of people in our community listen to K-LOVE for its' family oriented music & programming, and get the positive morals & beliefs that our nation was founded on. K-LOVE is a valuable asset to our community and many others of which the public has proven time and again by support K-LOVE 100% through volunteer donations. If K-LOVE was replaced by a LPFM station our community would be the loser and myself & many others would be hard pressed to find another station with the family values & morals that K-LOVE provides. Do not give LPFM stations priority over current translator stations!!
